

UrbanMetaMapping Seminar Series 2023/24 via zoom, 11.00 - 12.00 (CEST/CET)

Registration via: talks.urbanmetamapping@uni-bamberg.de

The UrbanMetaMapping Research Consortium warmly invites you the third edition of our online, midday academic talks on issues connected to our research interests on mapping man-made and natural catastrophes, heritage, urban planning, and digital tools used for researching these.

Meetings take place once per month at 1100am – 1200pm (CEST/CET). They last for an hour (including Q&A) and provide an exciting platform to discuss with international scholars their research and exchange ideas. If interested, please email us at talks.urbanmetamapping@uni-bamberg.de to receive access to our Zoom meeting room. We look forward to you joining us for the UrbanMetaMapping Seminar Series!

Program

September 20:

Jovana Janinovic (University of Montenegro)

Cartography of dissonance: Mapping communist heritage through guided tours of post-socialist cities
